Use “>” button to cycle through list.
1. **Initial Set Up.**

When the heater is switched on for the first time, it begins operating at the default “comfort” temperature of 22°C. This is the home screen.

The screen will blink indicating that the time and day has not been set.

2. **Pre-Set programmes.**

The heater has 3 programme modes: “Office” (P2) “Home” (P3) and P1( the user’s programme). See section 4 for details on how to set P1. The heater will operate at the default temperature settings comfort = 22°C, reduced = 17°C.

3. Setting the time and day.

Start from the home screen:
- Hold the OK button until Td is present

1. Select the current day of the week using + and –. Hours (e.g., 1 - Monday, 2 Tuesday etc) Press OK to confirm and move on to setting the hours.

2. Set the current hour; press OK once to confirm.

3. Set the minutes; press OK once confirmed.

4. Td will show on the display.

5. Hold OK to return to the home screen.

The time and day must be set before you can access the programmes and functions.

4. Setting the heater’s timer.

Start at the home screen, as shown below.

- Press and Hold OK until the menu is opened.
- Press the > button until Pr is displayed.
- Press OK to enter the day menu.

1. Press OK to Select P1

2. Press >

3. Press OK

4. Press OK to Confirm

Now select which days you wish to programme

7d Programme Monday - Sunday
5d Programme Monday - Friday
2d Programme Saturday – Sunday

d1 Monday
d2 Tuesday
d3 Wednesday
d4 Thursday
d5 Friday
d6 Saturday
d7 Sunday

Then press OK to confirm
The Time programmer will now be open.

0 indicates midnight.

Pressing the + button will set the heater to “comfort” mode.
Indicated by a green light at the top.

Pressing the - button will set the heater to “reduced” mode.
Indicated by a green light at the bottom.

Using the + or – select either comfort or reduced mode.

Use the > button to progress onto the next hour.

Continue through each hour using +/- and > until you arrive back at 0.
Make sure each hour is programmed to comfort or reduced.
Then press OK once to return to the programme day screen.
Hold OK until you return to the initial home screen.
5. Setting comfort and reduced mode

Start at the home screen, as shown below.

Press and Hold OK until the menu is opened.

Press the > button until Co is displayed.

Press OK once; a number is displayed. Use + or – to change the comfort temp.

Press OK once return to the menu screen below screen.
Then press > once. RD will display.

Press OK once; a number is displayed. Use + or – to change the reduced temp. Then press OK to return to the menu.

Then, press and hold OK to return to the home screen.

To activate the programme, select P1

See section 6 on how to activate the timer.
6. Changing / Activating programme mode

Start at the home screen, as shown below.

Press the “>” button to open the menu list

Keep pressing the > button until the desired programme is displayed.

Press OK to confirm your selection.

See the key below for details

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
